

UNIVERSAL DECLARATION OF THE FUNDAMENTAL RIGHTS OF CHILDREN TO A HAPPY CHILDHOOD

Considering that the future of humanity and all life on the planet depends on halting anthropogenic climate change and maximising bio-diversity.

Understanding that humanity is capable of destroying itself, the planet and the planet's ability to support life.

Recognizing that freedom from traumatic memories and fears about the future constitutes a happy childhood.

Believing that adults who have grown up in happiness will act to protect their own children and the planet in a loving, kind and compassionate manner.

Affirming that all future human activity shall have maximising childhood happiness as the primary objective.

Declare solemnly that all children have a fundamental right to a happy childhood and in pursuance of this:

ARTICLE 1

To the extent that laws are or have been passed which impede on the right to a happy childhood, children are to be fully exempt from such laws.

ARTICLE 2

To the extent any human activities, including activities of a military or commercial nature, are conducted which impede on this right, children are to be fully exempted. Specifically, this includes any armed conflict, occupation or enforcement of any man-made notions such as "citizenship" that affect childhood happiness.
